

# Fast Lane Company Overview

Fast Lane is a leading provider of education services for both technical and sales professionals working with advanced and emerging IT technologies. Founded in 2002 and having offices in 40 countries, we offer complete, authorized training solutions for Cisco, NetApp, VMware, Microsoft and other major technology providers. In addition to those vendor's standard curricula, we also develop advanced technology and sales courses to ensure you have access to the most up-to-date and relevant training for your career.

With over 500 vendor-certified instructors, many of them multi-certified subject matter experts, combined with our state-of-the-art training and lab facilities, Fast Lane offers you the opportunity to learn from the best in the business. Our technical experts have real-world experience plus access to authorized vendor content and our advanced labs provide a first-rate training experience that raises the bar for training quality.

Fast Lane offers numerous ways for you to get the training you need. Our Instructor-Led Training (ILT), Instructor-Led Online (ILO), and FLEX™ Classroom courses utilize authorized vendor and custom-developed curricula. In addition to our extensive public course schedule, we can provide private group on-site training at your choice of location. We also offer vendor-authorized E-Learning solutions to help round out and enhance your experience.
